SUMMARY OF THE REASONS FOR DECISION:

The untitled set of four colour separations (also known as *No 8 Four Photographic Separations*) is classified as:
Objectionable.

The publication consists of four separate sheets of colour separations which are made of plastic and are monochrome in appearance. The sheets are used in the printing process. The publication features two photographs. One photograph is an image of a male urinating into the mouth of a semi naked female. The picture is further sexualised by the sexual activity depicted in it and in the adjacent picture, namely masturbation and vaginal intercourse. The publication promotes and supports the use of urine in association with sexual conduct by explicitly depicting such activity and presenting it in a manner designed to arouse the viewer.

Consideration has been given to the relevant provisions of the New Zealand Bill of Rights Act 1990 as they affect this publication.
